UNIFORMS FOR BAND SOON ASSURED FACT

The uniforming of the high school band has truly been established as a community project, and every individual and business has cooperated whenever and wherever such cooperation was possible.

The committee on selection of uniforms for the band and orchestra is most happy in announcing that Jamison Bros. and C. Hofman Co., the two local firms which submitted samples and prices, have joined forces in the spirit of this community undertaking and will furnish the best quality of uniform possible in keeping with the committee's decision to spend not more than $17.50 on each uniform.

Mr. Jamison and Mr. Hofman, meeting with the committee last Thursday, advised that their selection of uniforms would meet the approval of everyone and that they believed the uniforms would be ready for the use of the high school band and orchestra the latter part of April.

The following contributions were reported up to yesterday:

RAINFALL FOR STORM NOW OVER TWO INCHES

The rainfall for the current storm had reached a total of 2.08 inches last evening at the time the Dispatch went to press. The total for the season to date has been 25.05 inches, against an annual average of about 37.

The rain has done a world of good, as the ground was becoming rather dry. The rainfall will insure green grass for several months to come and will boost crops amazingly.

There has been no frost for over a week and if the warm weather holds there will be more fruit in Ukiah and neighboring communities than there has been for years.

THREE FOR TRUSTEE

Three candidates have filed papers for nomination to the office of city trustee. As there are but three to be elected, the election promises to be without undue excitement.

The new trustees will be W. D. L. Held, J. R. Thomas and U. S. Gantz.

City Clerk Fred Handy will have no opposition, neither will City Treasurer Peirson.

For school trustee Guy Redwine will be the only candidate to succeed Gus Hornbrook, who is retiring.

ATHLETIC CLUB TO HOLD SMOKER WED. EVENING

The Ukiah Athletic club has arranged to hold open house next Wednesday night at the Legion hall and some three hundred invitations have been issued. The affair will be in the form of a smoker.

Among the amusements planned for the crowd are several boxing matches, wrestling matches, a basketball game, mat work, tumbling, and other athletic events.

The club is getting well on its feet now and new members are being added every week.

The club plans a number of these evenings to be given at intervals during the year.

PROTRACTED HOURS WILL GIVE CHANCE TO REGISTER

County Clerk Willis Prather announced yesterday that his office will be kept open next Friday evening from 7:30 until 9:30 and on Saturday all afternoon and from 7:30 until 9:30 in the evening. HIGH SCHOOL PLANES NOW EN ROUTE FROM NEW YORK TO UKIAH

Race Between Two Commanders Takes on Interest as Ticket Selling Campaign Opens Monday

ONE TICKET EQUALS 10 MILES

Students of the Ukiah high school will put on a spirited ticket selling campaign during the days of Monday, Tuesday and Wednesday, Mar. 26, 27, 28. This effort of the students will be in the interest of instruments and uniforms for the high school band and orchestra, and will supplement the fine effort which has been made by adult committee members in interviewing business interests and individuals.

The students are putting on a competitive effort with two groups in competition under the leadership respectively of Bill White and Elizabeth Ryder. The competition will take the form of an aeroplane race from New York City to Ukiah with Commander "Bill" White as pilot of one plane and Commander Elizabeth Ryder as pilot of the second plane. Each commander will have four mechanics to help the plane reach Ukiah, and each mechanic will have four assistants to see that the plane has plenty of fuel to insure its arrival at Ukiah. The fuel will be computed in terms of tickets which are sold to the big community entertainment on Friday, March 30.

Each adult ticket which is sold will count as ten miles in the race of planes from New York City to Ukiah and an air map of the United States in the windows of the chamber of commerce will advise just where each plane is after Monday night, March 26, and you can tell whether Commander White or Commander Ryder is leading in the big race for honors. It is understood that the commander and crew which reaches Ukiah first will have a fine dinner served them by the losing plane and the defeated commander and crew.

The ticket selling effort will confine itself to the resident section, and those who have not contributed to the cause. If residents of Ukiah will cooperate to the extent of just buying a few tickets to the community entertainment the success of the project will be assured, and both commanders and both planes will reach Ukiah on March 28 in a race which will be decided by the thickness of the paint on the winning plane.

FT. BRAGG NEWSPAPER SUFFERS LOSS BY FIRE

A fire in the plant of the Fort Bragg Advocate and News at Fort Bragg caused damage amounting to several hundred dollars last Wednesday and for a time threatened to destroy the entire plant and building.

The blaze started at about 9:00 o'clock in the morning from the ignition of gasoline in a tank which fed a gasoline burner. The keyboards of the two linotype machines in the office were destroyed and the machines suffered considerable other damage. It will take about a week to rehabilitate the plant, as most of the damaged parts will have to be replaced with parts from San Francisco. A representative of the Mergenthaler Linotype Co. was on the scene the next day and is working to get the machines back into working order.

The plant of the Mendocino Beacon, twelve miles down the coast from Fort Bragg, will take care of the Advocate's mechanical needs pending rehabilitation.

DIFFICULT OPERATION

Willa Cubbler, aged five, of Covelo, was operatel upon last Saturday by Dr. Cleland at the Ukiah General hospital for mastoid. This is the first time this operation has ever been done here, and Ukiah is to be congratulated upon having a well equipped hospital where operations of this serious nature can be done.

Miss Helen Dewey was home last week end. Her mother, Mrs. H. E. Dewey, returned to Oakland with Miss Helen Sunday for a visit of a week or two.

FINANCIAL CONDITIONS GOOD IN THIS COUNTY

Have you $255 in the bank?

If you haven't your bank deposit isn't up to the average for this county.

Basing the population of Mendocino county on an estimate of 25,000, there is enough cold cash in checking and savings accounts in the banks of Mendocino county to give each man, woman and child $255 in round figures.

The total deposits as shown in the bank statements called for February 28 last were approximately $6,375,000.

Evidently the stock market and the radio and automobile dealers are not getting all the spare cash.

In the Savings and National banks of Ukiah there was $2,192,325.95, which also included deposits in the Hopland bank, a subsidiary of the Savings bank.

In the Fort Bragg National there was $1,113,891.83.

The two Willits banks had $781,831.58.

The Bank of Covelo had $99,012.74.

The Bank of Point Arena had $185,699.29.

These represent total cash in checking and savings accounts of $4,372,761.39.

To be added to these are the Bank of Italy deposits in Ukiah, Fort Bragg and Mendocino. The sum of $2,000,000 is a conservative estimate for these. This makes a grand total of $6,372,761.

Then there is probably several hundred thousand dollars in old socks, tin cans, fruit jars and other private depositories.

So, all in all, Mendocino county people have some six and a half millions of what may be called "working capital" and own property worth probably seventy millions more.

Not so bad.

PROCEEDINGS OF THE SUPERVISORS

The Board of Supervisors of Mendocino County met at 3:30 o'clock p. m. Monday, March 12, 1928 with the following present: N. P. Howe, chairman; E. L. Williams, E. M. Ford, J. M. Rupe, Chas. R. Perkins, members; W. H. Prather, clerk by M. A. Carpenter, deputy clerk.

By unanimous vote of the Board the following changes were made in the plans and specifications of first unit of Mendocino county courthouse: A 4-inch sewer to be connected to Perkins St., instead of a 4-inch sewer to State St., at a reduction of $209; glass partition in county clerk's office omitted at a reduction of $364; contractor permitted to install 18-inch concrete wall in place of 12-inch concrete wall between the two east store rooms and the old building at no additional cost to Mendocino county; contractor allowed to make changes in positions of radiators and pipes therefor in the heating system of the old courthouse, as directed by the architect and at no additional cost to the county.

An order was made that this Board take no action in the matter of the application of the Golden Gate-San Rafael Ferry Co. for a franchise to install a direct service from San Francisco to Point San Quentin.

The Board then adjourned to, and re-convened at 9:30 a. m. March 13, 1928, with all members and deputy clerk present.

A resolution was adopted appointing the following persons directors of Potter Valley Irrigation District: John Hughes of Division One until March, 1931; George Burkhart of Division 2 until March, 1929; James Eddie of Division 3 until March, 1931; Leon Grover of Division 4 until March, 1931; and Charles Hopkins of Division 5 until March, 1929.

By a four-fifths vote of the Board claims No. 3198 to 3208, both inclusive, for the repair, maintenance and reconstruction of existing roads of the fifth road district were ordered paid out of the County General No. 5, 1927 fund.

The minutes of the previous meeting were read and approved.

A resolution was adopted and passed by the Board recommending the acquisition of the Hendy tract and the Montgomery redwoods and the establishing of the same as state

PROPERTY OWNERS TO PAY STREET PAVING EXPENSE

A report was current about town yesterday that the taxpayers of the city at large would be called on to pay the expense of paving Scott, Perkins, School and Stevenson streets in accordance with plans adopted by the city trustees last Monday evening.

The report is not true, as the expense of paving, including the intersections, will be borne by the property owners whose property borders the portions which are to be paved.

COAST NOTES

FORT BRAGG, Mar. 21.—Iver Iverson of Point Arena, who had the misfortune of having two tendons in his left wrist severed when he was butchering a pig was treated at the local hospital and had the tendons sutured. The pig which he was holding kicked him on the wrist and the sharp hoof cut a deep gash in the wrist and severed the tendons. At the present writing he is getting along nicely but it will be some time before he will be able to use his left hand.

Vernon Hood, of Caspar, was very unlucky last Friday evening by having his hand and arm scalded by steam from the crane. He immediately went to Mendocino and Dr. Leidig of that place fixed it up. It will be some time before Vernon will be able to be on duty again.

That Fort Bragg has shown much progress during the year 1927, is evidenced by a report prepared by a representative of the Advocate and News dealing with statistics of the building trades within our city. While the report of expenditures is not absolutely complete, it is correct as far as it was determined. However, is was to be expected that some improvements were made beyond the figures given, which would increase the total, but they could only be estimated and therefore were not taken into account.

The figures compiled show that $200,000.00 has been expended in building for the year 1927. This astonishing total for a town, the population of Fort Bragg, is supported by figures obtained from the contractors doing the work, includes the erection of a theatre, one church, 16 new houses, and the remodeling or complete repairing and building of additions to others.

Joseph J. DeRosier, an old time resident of Albion Ridge district, died at the home of his son, Henry De Rosier, in Navarro Tuesday morning, March 20. Mr. De Rosier was a native of Canada, being born in the town of St. Francois, March 1, 1846 and was 82 years, 3 months of age at the time of his passing. He came to California in 1875 and had lived for nearly 50 years on the Mendocino coast, most of which was spent at his home on Albion Ridge. About a year ago he went to live with his son and family at Navarro. He leaves but one relative, Henry De Rosier, his son.

SEEKS COURT ORDER IN CONTRA COSTA DISPUTE

Van Damme After Mandate to Compel Supervisors to Grant Franchise for Bridge to Marin Co.

MARTINEZ, Mar. 20.—Two petitions were placed before Judge A. B. McKenzie yesterday by the Richmond-San Rafael Ferry, by which Van Damme is endeavoring to force Contra Costa county supervisors to grant him a franchise for a $10,000,000 bridge, joining Contra Costa and Marin counties.

This petition was recently denied by the supervisors and the board awarded a permit for a $15,000,000 bridge over practically the same area to Roy Long of Berkeley.

Writ of Mandate

These petitions comprise a writ of mandate, which asks that a franchise be granted to him or reason shown whf this should not be done and for the court's review of the entire proceedings before the supervisors and to direct the board to grant the franchise.

Van Damme states that the board of supervisors is without the authority to make this denial and, further, that the bridge as he proposes it is the logical one, as it is to be built along a now traveled road over an established route, and as such can be built more quickly and at less expense than that proposed by Long. Demurrers to these Van Damme petitions were submitted to the Judge by A. B. Timming, district attorney, on behalf of the board of supervisors, and were sustained by him, but at the same time allowed Van Damme's attorney time in which to amend his petition. The land at both terminals as proposed by Van Damme is owned by him.

Expects Permit

Judge McKenzie stated at the hearing that "I cannot see how the board of supervisors, in a situation of this kind, can refuse to grant such a franchise to the owner of the land at the terminals of the structure," and pointed out further the fact that the Richmond-San Rafael Ferry Company now has a large and heavy investment in an operative business. And also that the board of supervisors in denying the franchise did not state that they had found the proposed bridge inadequate to meet the needs of the public, but as Timming had stated, the board in refusing the grant had made a finding by inference only that the bridge would be insufficient.

Judge McKenzie fixed Wednesday March 28, as the time for the amended petitions to come before him again and the case was continued until that time.

GOLDEN GATE STAGES REPORTS ON REVENUE

Golden Gate Stages, operating in San Francisco to Santa Rosa, reports to the Railroad Commission its 1927 operating revenue at $135,177.94, as compared with $142,897.09 for 1926. The operating expenses, excluding taxes for 1927, are reported at $113,405.23, and at $132,68 for 1926, leaving net operating revenue of $21,772.71 for 1927, and $10,190.41 for 1926. During 1927 taxes charged to operation amounted to $6,188.75, and for 1926 to $5,813.51. Deducting the taxes leaves operating income of $15,583.96 for 1927, and $4,376.90 for 1926. Adding to the operating income, the non-operating income of the company and deducting non-collectible revenue and rents, results in a gross corporate income, (which represents the amount available for interest, amortization of debt discount, other fixed charges, non-operating expenses, dividends and surplus), of $15,727.96 for 1927, and $4,600.62 for 1926.

FIRE DESTROYS GARAGE AND CARS AT MENDOCINO

Fire destroyed the private garage and two cars of Matt Goldsam at Mendocino early Tuesday morning. The alarm was turned in by night-watchman Waite who noticed the glare of the fire while making his rounds in the Point yard of the Mendocino Lumber company. The chemical engne and crew responded promptly and succeeded in saving a small dwelling occupied by Fred Porteous and holding the flames in check from it and other buildings until the hose line from the gravity system could be run out and connected. The fire started about 2:00 o'clock in the morning, possibly originating from one of the cars. The garage was small and not covered by insurance. Two cars were destroyed, one a Chevrolet and the other a Ford.

Reduced Rates

Invite greater use of electricity

It is now possible for customers to make greater use of electricity for better lighting, heating, cooking, and the operation of modern electric labor saving appliances.

Heating and cooking by electricity at rates as low as 1½ cents makes it more attractive for those customers not now using this clean, quick, convenient fuel.

New rates benefit large and small users

In addition to providing a material reduction in the minimum monthly cost to those who use very little, the schedules also provide new and much lower rates for the energy consumed.

The effect of the new rate on each consumer depends upon his use of the facilities available to furnish service. The more used, the lower the average rate.

Electricity is cheaper—you can use more of it

Our representatives will be pleased to explain the new reduced schedules in detail.

County Federation Meets at Mendocino City, Saturday

Mrs. W. W. Green, state president, Federated Women's clubs, brought a big message to the Mendocino county federation convention held last Saturday at Mendocino City. Mrs. Green is the first state president to attend a Mendocino convention. Mendocino Study club was the hostess group. The state president spoke on "Adult Education, Conservation and Legislation."

Power of Federation

Mrs. Green brought home forcifully to the club women their power as part of the national federation. The Federation of Women's clubs is second in numbers only to the Federation of Labor and second in power only to the government of the United States. Clubs do not happen, the speaker said. They are an organization of womanhood shaping the civilization of the world. The speaker tried to impress on the club women that each club member had as responsible position in the club group as the state president. That upon each individual member depended in part the power of the whole.

Educate the Mother

The Federation of Women's clubs the speaker cited as an example of adult education. If you educate the adult, the mother in particular, the problem of child education will take care of itself.

Conservation

The state president urged the conservation of all natural resources for "our children's children." In legislation she affirmed, all the women ask is simple justice. The biggest subject for the future of the women's organization is the establishment of permanent peace that their sons may never again have to be sacrificed to war.

Legislation

Mrs. Green attends the meetings of the governor's cabinet and watches every measure that comes before it. She stated that the Federated clubs formed the only power that has ever brought a bill back before the senate of the United States and forced its adoption.

Representation

The convention as a whole was inspiring. There were 72 delegates and members present. Seven out of the twelve clubs in the county were represented by their presidents. There were two district secretaries and one district president in attendance.

Program

The morning session opened with a salute to the flag lead by Mrs. Harriet Denham. Assembly singing was lead by Miss Margaret Ammerman, accompanied by Mrs. Alice Elliott. Mrs. Laura Lammers read the collect. The greeting to the convention was extended by Mrs. Margaret Stauer, president of the hostess club, and was responded to by Mrs. Anna Higgins, county president.

Reports

Reports were given by the club presidents. Plans for Mendocino County Health club were set forth by Miss Alice Ringheim, county nurse. Mrs. Hamilton Riggins, district president, spoke on closer coordination between the clubs of the district. She told some of the plans for the district convention to be held April 18, 19, 20. Governor Young and John L. McNab will be speakers at the district convention.

Music

Miss Margaret Ammerman was the soloist of the sessions. In the afternoon preceding Mrs. Green's talk, Miss Ammerman sang a group of songs the words of which had been written by Mrs. Ball of the Sorosis club of Fort Bragg. The words were all complimentary to Mrs. Green. One was sung to the tune of "Wearing of the Green."

State Parks

Mrs. Greene Burke, representing the Mendocino County Park Commission, presented Montgomery redwoods and the Joshua Hendy tract of redwoods, for consideration as state parks, to be included in the $6,000,000 bond issue which comes before the voters this fall. Mrs. Green presented a resolution which was endorsed by the convention. The motion to endorse the resolution was proposed by Mrs. W. E. Williams, president of Saturday Afternoon club and seconded by Mrs. Joe Reilly of Anderson valley.

Resolutions

Other resolutions endorsed were for maternity wards in county hospitals and a county library.

BULLDOGGING

No other cowboy sport carries the hazard that does bulldogging; more cowboys are killed or crippled this way than any other, not excepting the bucking horses. The greatest risk is in making the jump as seen in the picture. The Ukiah Rodeo has received word from Frank Smith, one of the best in the business, that he will be on hand this year to compete in this event. The remodeling of the grandstand, which is now taking place, will enable everyone to see clearly and it is possible that this event will be held on the track instead of the arena as last year.

C. T. & L. CONSUMERS GET BIG RATE REDUCTIONS

New Schedules to Save Patrons of Company $125,000 Yearly

California Telephone and Light Company's electric consumers will, on the basis of the new rates filed by the Pacific Gas and Electric Company for consumers of the local company, receive marked reduction in electric rates.

Under the new schedule the old minimum charges will be abolished and a small service charge is substituted. The service charge will be 50c a month for incorporated areas and for unincorporated areas, 70c a month.

The charges for electric energy will be so reduced that the minimum charge for unincorporated areas will be 6c per K.W.H. and for incorporated areas, 5c per K.W.H.

Under the new domestic schedules provisions are made for special rates where the consumer has installed lighting and heating, or power. Under this schedule the rates range from 3½c per K.W.H. to 1½c per K.W.H.

The company's object in reducing rates, according to W. W. Shuhaw, assistant division manager of the company, is to primarily encourage a greater use of electricity in the home and make the local rates on a par with the balance of the Pacific Gas and Electric Company's system.

"These new rates will result in a saving of $125,000 to consumers of the California Telephone and Light Company, based on the present usage of electricity."

The cut is said to be part of the largest voluntary reduction ever made by a utility corporation in the West.

DEMONSTRATION TRAIN

(Continued from page 1)

the problems of pork production. There will be eight head of hogs carried on the train which will be used by Professor Hughes in connection with his demonstrations. Some of the points that will be discussed from this flat car will be the selection of breeding stock, feeding pigs for market, some of the marketing problems, the sizes of market hogs that are desirable, and general ideas of the economics of the pork industry.

Car No. 9 is a baggage car which contains dairy exhibits. These exhibits will be some that have been used at the state fair on cow testing, general dairy improvement, selection of dairy sires, and stories regarding the use of purebred sires vs. scrubs. In addition there will be exhibits in this car regarding sterilization of dairy equipment, coolers that might be used by farmers in cooling their milk and preparing it for market.

Car No. 10 will be a dairy flat car. From this car Mr. G. E. Gordon, extension specialist in dairying, will discuss dairy breeding and selection, using nine head of dairy cattle which will be transported for this purpose. Some of the outstanding individuals from the herd at the University farm at Davis will be carried on this train and typical animals of four breeds will be exhibited.

Car No. 11 is a baggage car in which the dairy cattle will be transported.

Car No. 12 is a baggage car in which there will be poultry exhibits. These exhibits will have to do with standard U. S. grades, candling of eggs, exhibits of feeding California feeds to California poultry, cooling devices for eggs applicable in the warmer sections of California, poultry house equipment, and general farm flock management.

Car No. 13 is a flat car from which Mr. W. E. Newlon and Mr. M. W. Buster will discuss poultry problems from the standpoint of the status of the industry, egg quality, selection of poultry, particularly on the farm flock basis, care of eggs, and the general feeding of poultry. In addition to this, there will be a demonstration team composed of 4-H club members who will demonstrate the brooding of baby chicks and poultry feeding.

Car No. 14 is a baggage car containing exhibits in kitchen equipment and kitchen management. These exhibits will consist of kitchen conveniences applicable to the farm home and also an actual kitchen arrangement with cupboards, built-in features, a stove, a kitchen table, water heater, and many other features of interest to farm women.

Car No. 15 is a coach in which the subject of kitchen management will be discussed. This is the only car in which the audience will listen to discussions. It is felt that for the convenience of the women it would be better to carry this coach along so that they may be in out of the wind and rain. In case there are too many women to be accommodated in this coach, we have arranged for the women of the farm home departments, who are more or less conversant with the subject matter which will be presented, to hear this discussion outside of the car. Thus those who are not familiar with the work will be given preference and housed in the coach.

At the conclusion of these discussions, the entire gathering will be given sufficient time to go through the train and see these exhibits. They will enter the train at the coach and pass through the train to the exit on the sleeper.

STATE VAUDEVILLE TO INCLUDE BIG VARIETY

No matter what your taste, you should find something to interest and entertain you at the State next Tuesday evening, "vaudeville night." The program includes music, song and dance hits, equilibrist stunts and a comedy hobo act.

Nelson and Ray in "A Musical Cocktail" are offering banjo, xylophone and saxaphone numbers with a peppy repertoire finishing with a medley of jazz hits.

Three pretty girls and an agile young man in novel songs and dance hits with a little music and some neat draping bits comprise "Fantastic Diversions," which has made a big hit on the circuits where it has appeared.

Reynolds and Collette are novelty equilibrists, a young couple with neatly routined hand balancing stunts and upside down tricks. This is a clean-cut acrobatic specialty and is another big hit.

Curt Galloway, "Last of the 400," brings a comedy hobo act of the highest type with songs and stories of a road knight of today. Galloway is known from the Atlantic to the Pacific. He has some funny tales of the life of a hobo.

DEATH OF ALF HILL REMOVES OLD PIONEER

A. P. (Alf) Hill passed away at his home here last Sunday at the age of 81 years. He was a native of Maryland, and came to Ukiah some fifty years ago. With his brother, Henry Hill, he was one of the prominent early day settlers of this section and at one time was identified with extensive lumbering operations at Low Gap, when that community boasted a considerable population and much activity.

The funeral was held Tuesday afternoon.

There remains to mourn his loss one son, Chet Hill, of this city, and several nephews and nieces.

Miss Lundgren, a trained nurse from Oakand, is here to attend Miss Wanda Ornbaun, who submitted to an operation at the General hospital this week. Miss Lundgren took care of Miss Ornbaun for several weeks when she was in an Oakland hospital some time ago.

Assemblyman Chas. Melville was in town from Fort Bragg Thursday on business. He was accompanied by Winter Salsig, sealer of weights and measures.

GRAPE GROWERS HOLD INTERESTING MEETING

Railroad Rates, Labels, Standardization, and Other Pertinent Subjects Among Matters Discussed

A local district meeting of the members of the California Grape Growers Exchange was held in Ukiah on Monday evening, March 19, at 7:30 o'clock in the city hall assembly room and most of the members of the Exchange were in attendance.

The gathering was presided over by Fred Waugh, who is the advisory chairman of the grape exchange in this section. It was one of some thirty-five meetings of the grape exchange is holding with its members during the spring in the state, and it was the opportunity for E. M. Sheehan, the president and manager, and H. F. Stoll, the secretary, to meet with and address the membership on current issues and the marketing problems for the coming 1928 season.

Among the many subjects touched on were railroad rates which have been reduced from $35 to $40 a carload less than the prevailing rates last year, the idea of establishing labels for the grapes of the members, possible changes in the standardization and inspection laws and regulations, the cost of box shook, surveys of the crop, buying powers in the east where most of the grapes are sold, the use of different sizes of boxes, the f. o. b. auction situation, pre-season selling, and many other angles suggested by the members present, including the subject of service for the growers in the matter of furnishing boxes and loading cars.

President Sheehan called attention to the fact that the membership was increasing daily and that the exchange was now over 1330 members strong in the state, which means that there are that many vineyards within the organization in the state, and practically all of them of the black juice grape varieties. New members have been made recently in Butte and Marin counties and the membership in Placer, Sacramento, San Luis Obispo and San Joaquin counties have been materially increased.

The meeting here was an enthusiastic one and those who attended were given a wealth of information and data that will prove of value to them in deciding how they shall dispose of their 1928 crop. The meeting went on record in favor of the state organization adopting a label to be used this season.

The meeting in Ukiah was preceded by a meeting in the morning at Hopland, where J. M. Salinger acted as chairman and in the afternoon, at Improvement hall, in Redwood valley, where John Finne presided.

Charles Crawford, of Ukiah, is the representative of Mendocino county on the state board of directors of the California Grape Growers Exchange and he expressed great satisfaction at the splendid attendance at all three meetings.

DR. G. W. STOUT CALLED AFTER LINGERING ILLNESS

MRS. LULU BAKER DIES IN S. F. MONDAY NIGHT

Mrs. Lulu Taylor Baker passed away suddenly in San Francisco about midnight Tuesday. Death was believed to have been caused by acute indigestion. Funeral services were held yesterday morning in San Francisco.

The deceased is a sister of Lee and Harris Taylor, the Misses Nettie and Pearl Taylor of this city, and Mrs. Annie King of San Francisco. She was a daughter of the late Mr. and Mrs. John Taylor. Mrs. Baker was born in Healdsburg, coming to Ukiah with the family when a very young child. She grew to womanhood in this city, attended Snell Seminary in Oakland and was graduated from the Pacific Methodist College in Santa Rosa. She became the wife of J. M. Baker of San Francisco and made her home in that city up to the time of her death.

Mr. and Mrs. Baker recently returned from an extended eastern trip which was cut short by the illness of Mrs. Baker while visiting at Washington, D. C. The deceased entirely recovered from that attack and was in excellent health just prior to her death.

Mrs. Baker is very well known here where she made her home for many years and where she frequently returned as a guest in the homes of her brother and sisters. The Misses Nettie and Pearl Taylor went to San Francisco on the early morning train Wednesday and were followed later in the day by the Lee Taylors. Jack Taylor has been making his home with the Bakers while attending the University of California.

George Davis was down from his home in Potter valley on a short business trip last Tuesday.

Dr. and Mrs. L. K. Van Allen have both been confined to their home the past week with influenza in serious form.

HOLDS FORMAL OPENING

The formal opening of the Mary Louise Shoppe took place Wednesday and visitors from this county and Lake viewed the fashion show which marked the opening day of this city shop.

Mrs. Mary Louise Killen, proprietor of this latest addition to the shopping facilities of the town, was connected for some years with one of the largest department stores in the southern part of the state. For the past year she has been buyer for Fosters. In that time she has won for herself a valuable place by her ability to suit individual taste, her cleverness as a saleswoman, and her taste as a buyer.
